

ALL-PURPOSE CLEANER

Our multi-purpose cleaner is designed to handle all your cleaning needs. From carpets to floors, grout, and stainless steel, our versatile formula can tackle any surface, leaving it sparkling clean and fresh.

INGREDIENTS

Butyl glycol; Linear alkyl benzene sulphonic acid; Caustic soda; HCL; Aqua; Fragrance; Color Preservative.

SPECIAL FEATURES

- Effective in both industrial and critical cleaning applications.
- Its unique formulation of various ingredients including ionic, and non-ionic compounds produces a variety of cleaning actions.
- Effectively removes the most common spots and spills.

STORAGE

- Store at room temperature, dry, well-ventilated place and out of direct sunlight.
- Store away from food stuff.

SAFETY CONSIDERATIONS

- Avoid contact with eyes, skin and clothing.
- May cause irritation to mouth, throat and stomach.
- Keep it away from children's reach.

DIRECTIONS FOR USE

Put the product on the place to be cleaned, then rub it well and rinse with water.

- Add 1:20 dilution for daily use cleaning services.
- Add 1:5 dilution for the deep and hard cleaning services.

Dilution Calculation:

1. As a rule, add the ratio numbers together. So, 1:20, 1+20=21.
2. Next, determine the size of the container the product will be diluted in. so we'll use 0.75 L as an example Convert the volume into milliliters = 750 ml.
3. Take your container volume and divide that by your added ratio $750 / 21 = 35.7$ ml (This is your PRODUCT measurement).
4. Subtract your product measurement from your container size. $750\text{ml} - 35.7 \text{ ml} = 714.3 \text{ ml}$ (This is your WATER measurement).
5. Mix the two together to get the solution.

neo ECO CLEAN

FLOOR CLEANER

Our floor cleaner is an Eco-friendly cleaner for the day-to-day cleaning of all types of floors such as Hardwood, Tile, PVC

INGREDIENTS

Linear Sulphonic Acid; Sodium lauryl ether sulfate; HCL; Caustic soda; Filtered water; Fragrance; Colour; Preservative

SPECIAL FEATURES

- This product is an ideal solution for cleaning any floor, even acid-sensitive surfaces such as marble, travertine, and other natural lime-based stone.
- Removes even the toughest stains and leaves your floors clean and shiny.
- It is made using non-hazard ingredients, and will not harm health or the environment.
- It is a concentrated product to be diluted in water; %100 water-based.

STORAGE

Keep the container tightly closed and store it in a cool, dry place; in the original and sealed packaging.

SAFETY CONSIDERATIONS

- Always keep the detergent locked up, high, and out of the reach of children.
- If the detergent is exposed to the eyes, rinse immediately with plenty of water for 10 minutes and seek medical advice, as needed.
- Close the container immediately after each use.

DIRECTIONS FOR USE

- Add 1:20 dilution for daily use cleaning (1 part of the product for every 20 parts of water).
- Add 1:4 dilution for the deep and hard cleaning services.

Dilution Calculation:

1. As a rule, add the ratio numbers together. So, $21 = 20 + 1$, 1:20
2. Next, determine the size of the container the product will be diluted in. so we'll use 0.75 L as an example. Convert the volume into milliliters = 750 ml.
3. Take your container volume and divide that by your added ratio $36 = 21 / 750$ ml (This is your PRODUCT measurement).
4. Subtract your product measurement from your container size. $750\text{m} - 36\text{ ml} = 714\text{ ml}$ (This is your WATER measurement).
5. Mix the two together to get the solution.

STAINLESS STEEL CLEANER

Our stainless-steel cleaner is specially formulated to clean and shine all types of stainless-steel surfaces. Our formula removes fingerprints, water spots, and other stains, leaving your stainless-steel appliances looking like new.

INGREDIENTS

LABSA; Sodium hydroxide; Aqua; Preservative

SPECIAL FEATURES

- Create an invisible protective film that slows down the build-up of dirt particles and keeps surfaces cleaner for longer.
- Wipe away dirt, fingerprints, grease, and residues on stainless steel and other metal surfaces.
- Safe to use in food preparation areas, making them ideal for commercial kitchens and food processing areas.

STORAGE

- Store away from heat and moisture.
- Keep in a cool, well-ventilated place.
- Do not expose to high temperatures.

SAFETY CONSIDERATIONS

- Causes serious eye irritation.
- Keep out of reach of children.
- Wash contaminated skin thoroughly after handling.
- Wear protective gloves/ eye protection
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses and continue rinsing.
- If eye irritation persists: Get medical advice/ attention.

DIRECTIONS FOR USE

- Add 100 ml per liter of water before use.

Dilution Calculation:

1. As a rule, add the ratio numbers together. So, $11=10+1$,1:10
2. Next, determine the size of the container the product will be diluted in. so we'll use 0.75 L as an example. Convert the volume into millilitres = 750 ml.
3. Take your container volume and divide that by your added ratio $68 = 11 / 750$ ml (This is your PRODUCT measurement).
4. Subtract your product measurement from your container size. $750\text{ml} - 68\text{ml} = 682$ ml (This is your WATER measurement).
5. Mix the two together to get the solution.

DISHWASHING LIQUID

Our dishwashing liquid is a highly-foaming mixture of surfactants with low skin irritation and grease-cutting power for faster and more efficient removal of grease, fats, and oils from dishes, pots, and other kitchen utensils.

INGREDIENTS

Texapon, Sulphonic acid, Ascarite, Amphoteric, Citric acid, Glycerine, Aqua, Fragrance, Color and Preservative.

SAFETY CONSIDERATIONS

- Always keep the dishwashing Liquid locked up, high, and out of the reach of children.
- If the detergent is exposed to the eyes, rinse immediately with plenty of water for 10 minutes and seek medical advice, as needed.
- Do not ingest.

SPECIAL FEATURES

- An ecological, highly concentrated dish-washing liquid for professional use.
- Easily removes all dried-on food residues and grease from all kitchenware, such as pots, pans, plates, cutlery, and kitchen utensils.
- It can be used for washing surfaces and appliances in commercial kitchens and the food industry.
- Dries without streaking and rinses off easily.

DIRECTIONS FOR USE

Add an amount of dishwashing liquid according to the number of dishes and the amount of water.

STORAGE

- Keep container tightly closed.
- Stable when stored in sealed container at room temperature.

AUTO DISHWASHING LIQUID

Our Auto-Dishwashing Liquid is effectively neutralising fats and greases and removes all food soils from crockery and cutlery. It is formulated for use in soft and hard water areas and prevents build-up of hard water scale on interior of the dishwasher machine.

INGREDIENTS

Texapon, Sulphonic acid, Caustic soda, Amphoteric, Citric acid, Glycerin, Antifoaming

SAFETY CONSIDERATIONS

- Always keep the dishwashing Liquid locked up, high, and out of the reach of children.
- If the detergent is exposed to the eyes, rinse immediately with plenty of water for 10 minutes and seek medical advice, as needed.
- Do not ingest.

SPECIAL FEATURES

- An ecological, highly concentrated dish-washing liquid for professional use.
- Easily removes all dried-on food residues and grease from all kitchenware, such as pots, pans, plates, cutlery, and kitchen utensils.
- Also, it can be used for washing surfaces and appliances in commercial kitchens and the food industry.
- Dries without streaking and rinses off easily.

DIRECTIONS FOR USE

The product is automatically withdrawn by the machine depending on the number of dishes; the soil level of your dishes, and your water hardness level.

STORAGE

- Keep container tightly closed.
- Stable when stored in sealed container at room temperature.
